

Chocolate Espresso Mousse

Mitchell Feinberg

Serves 8

Hands-On Time: 20m

Total Time: 1hr 25m

Ingredients

8 ounces semisweet chocolate, chopped, 10oz
plus more, shaved, for garnishing
3 large egg yolks 4 yolks
2 teaspoons instant espresso powder 2 1/2 tspns
6 tablespoons granulated sugar 7 tbsps
2 cups heavy cream 2 1/2 cups

Directions

1. Melt the chocolate in a medium bowl set over (but not in) a saucepan of simmering water, stirring often, until smooth. Remove from heat and let cool slightly.
2. In a small saucepan, whisk together the egg yolks, espresso powder, 4 tablespoons of the sugar, and 3/4 cup of the cream. Cook over medium heat, stirring constantly with a rubber spatula, until the mixture lightly coats the back of the spatula, 2 to 3 minutes (do not boil). Strain into the melted chocolate and whisk until smooth. Refrigerate until completely cooled, about 30 minutes.
3. Using an electric mixer, beat the remaining 1 1/2 cups cream and 2 tablespoons sugar until stiff peaks form.
4. In 3 additions, fold the whipped cream into the chocolate mixture. Divide among 8 serving glasses and refrigerate for at least 30 minutes (if longer, bring to room temperature before serving). Sprinkle with the shaved chocolate before serving.

Tip

The mousse can be prepared up to 2 days in advance (do not sprinkle with the shaved chocolate).
