

Pumpkin Cheesecake With Caramel Swirl

Bon Appétit | November 1993

The 1990s opened with American cooks finding their way back to some of the foods and flavors of our country's beginning, then modifying them with new knowledge gained over time. Cheesecakes have been around for centuries, but they've never been more popular in the United States than they are right now. ~~Pumpkin, too, is a New World food for which tradition reserves an honored place at any Thanksgiving table.~~ We've teamed up these old favorites with luscious caramel in a creamy dessert that's right in step with the times.

Yield: Serves 10

ingredients

Crust

- 1 1/2 cups ground gingersnap cookies
- 1 1/2 cups toasted pecans (about 6 ounces)
- 1/4 cup firmly packed brown sugar
- 1/4 cup (1/2 stick) unsalted butter, melted

*- Trader Joe's Triple ginger Snaps!
(35 cookies)*

51 grams

Filling

- 4 8-ounce packages cream cheese, room temperature
- 1 2/3 cups sugar *334g*
- 1 1/2 cups canned solid pack pumpkin *(1 15oz can)*
- 9 tablespoons whipping cream
- 1 teaspoon ground cinnamon
- 1 teaspoon ground allspice
- 3 Tbsps flour*
- 4 large eggs
- 1 tablespoon (about) purchased caramel sauce
- 1 cup sour cream

preparation

For Crust:

Preheat oven to 350°F. Finely grind ground cookies, pecans and sugar in processor. Add melted butter and blend until combined. Press crust mixture onto bottom and up sides of 9-inch-diameter springform pan with 2 3/4-inch-high sides.

For Filling:

add 3 Tbsps flour
Using electric mixer, beat cream cheese and sugar in large bowl until light. Transfer 3/4 cup mixture to small bowl; cover tightly and refrigerate to use for topping. Add pumpkin, 4 tablespoons whipping cream, ground cinnamon and ground allspice to mixture in large bowl and beat until well combined. Add eggs 1 at a time, beating just until combined. Pour filling into crust (filling will almost fill pan). Bake until cheesecake puffs, top browns and center moves only slightly when pan is shaken, about 1 hour 15 minutes. Transfer cheesecake to rack and cool 10 minutes. Run small sharp knife around cake pan sides to loosen cheesecake. Cool. Cover tightly and refrigerate overnight.

Bring remaining 3/4 cup cream cheese mixture to room temperature. Add remaining 5 tablespoons whipping cream to cream cheese mixture and stir to combine. Press down firmly on edges of cheesecake to even thickness. Pour cream cheese mixture over cheesecake, spreading evenly. Spoon caramel sauce in lines over cream cheese mixture. Using tip of knife, swirl caramel sauce into cream cheese mixture. (Can be prepared 1 day ahead. Cover and refrigerate.)

Release pan sides from cheesecake. Spoon sour cream into pastry bag fitted with small star tip (do not stir before using). Pipe decorative border around cheesecake and serve.

notes

add 3 tablespoons flour to batter.
